Description:

After 30 years of experience in international transport and nearly 20 years of experience in agriculture, we (my wife and I) decided to combine these strengths and utilize our linguistic, cultural, and technical competencies. We thus represent an important link between the Arab world, primarily the rapidly growing Morocco, and Europe. Initially, due to high demand, our task was primarily the sale and delivery of cuttings and plants to Morocco, as well as simply establishing contact between European producers and Arab customers. Meanwhile, our area of responsibility has expanded from the export of plants to also include the export of all materials and machinery in the agricultural sector, as well as establishing contact and the export of fruits from Morocco.
