Turkey

### **Countries Africa:**

South Africa

Tunisia

### **Countries America:**

Canada

Haiti

Mexico

United States of America

### **Description:**

Since the founding of our company in Tramin, Tyrol, over 60 years ago, we have been producing innovative mowers. There by contributing to a sustainable agriculture, with a main focus on fruit farming and viticulture. Our sustainable philosophy is also a trademark in the municipal sector, for example in the maintenance of public spaces or during the process of mulching roadsides and lawns.

Fischer mowers give a pesticide-free contribution in all areas, for a natural, sustainable terrain and landscape maintenance. To cite a few examples, we operate at airports, on open space photovoltaic plants as well as on horse riding tracks, all over the world. Our longstanding experience in mechanical engineering and the continuous developments and optimizations in technology, combined with the high quality and the long lifespan led Fischer mowers to national and global recognition.
